

**(2) Day
April 29 & 30**

**Workshop
Sat. & Sun.**

Alcohol, Drugs, Gambling, Sex

ADDICTION CERTIFICATION with Tony De Marco, LL.B., Ph.D

Become a Certified Addictions Specialist! The addiction problem is growing in the USA for many varied reasons at the present time. More political trouble in the world, increased violence from within and without, high amounts of divorce, unemployment, increasing stressors all add up to attempts to escape from reality, dulling of pain, easing the effects of poor relationships, etc., via substance abuse and addictive behaviors. A therapist must strive to understand the addictive mind in general, and of the specific addict in your addictionology sessions. **This is a deep and abiding area in which to grow your practice.**

Reap the benefits of studying with the presenter who is steeped in research into negative and positive re-programming of the unconscious mind from "brainwashing" to authoritative to permissive hypnotic approaches, and who, over 25 years ago, after witnessing the therapies of addicts at diverse self-help groups, and personally working with addict-clients, named and created this original, unique session-by-session treatment program, entitled "**HypnoAddictionology**".

Be "led-by-the-hand": as you are walked through the 13 written session formats of the program, from the first session to the last session, that you will use as a working model in your practice. Be able to guard against common hypnotherapeutic pitfalls and mistakes. Understand the suffering depth of addicts by hearing the real-life horror stories known personally to the presenter. Benefit from the failures as well as the successes of the addicts

You have an abiding obligation to yourself and to your addiction-suffering-client to build a solid foundation for the use of hypnosis in gaining abstinence.

You will learn: The terminology of specific addictions. The mind-workings of the addict. Purely and simply, **how to talk to an addict.** How to ask the right questions. How to use a Confidential Interview form specifically designed for addicts. How to integrate the information from the Confidential Interview form into the written 13 session-by-session plan

How to educate and explain to the addict the use of hypnotic methods to gain abstinence so that the addict knows what to expect, accepts it when it happens, is not confused, and thereby participates to a far better extent

"Expose the demons to the light" with successful regression techniques

How to integrate the written 12 Step Recovery Program of Alcoholics Anonymous (AA) or Narcotics Anonymous (NA), and Gamblers Anonymous (GA) into each and every session in a clearly defined and meaningful fashion.

Triggers to eliminate cravings and urgings. Conduct interactive sessions

Put the addict to work in the session. Written addiction affirmations.

Copies of numerous 'homework assignments' for your clients

Who Should Attend

Every hypnotherapist/hypnotist who wants to work with **only one or many** addicts must take specialized training. This workshop aptly fills that need. **This course is also meaningful and highly worthwhile to doctors, nurses, psychologists, therapists or other health practitioners.** An addict touches the lives of 10 to 12 people, so that even those persons who have been touched, and just purely and simply want to understand the addict, and the value of hypnotic treatment, may attend this workshop, and are paying a small price for these insights and tools.

Testimonials

"Invaluable, insightful, completely understandable, excellent demonstrations and practice. A must for anyone who works with addicts" Pat Conte, M.D.

"A serious course taught by a highly experienced teacher. Tony teaches, and teaches and teaches. He gives his all." Ed Hamowy, A.C.H.

"I needed the proper foundation to work with addictions, which I totally received from this workshop. I am more aware, more confident, and better prepared to accept these clients." Eleanor Fisher, A.C.H.

"All of the students with whom I attended Tony's workshop were in agreement on the worth of the course. My ideas on addictions and their treatment have sure changed." Joseph Napoli, D.C., A.C.H.

"There is no guess work with the "Hypnoaddictionology" program. The 13 sessions are explained in class, and laid out step by step in writing for use in the office. The course book is worth the tuition." Joyce Rudinski, A.C.H.

Take-Home Materials

FIRST TIME INCLUDED: Never before has Tony's actual Practice Manual of 117 pages been included in his workshop. It contains the complete 13 session Treatment Plan that Tony has sold on the internet for many years. The practitioner will find that he or she can accept addiction cases and prepare a treatment plan based upon Dr. De Marco's Practice Manual. There is always tailoring of plans to fit the needs of the client, but by-and-large you will be able to use 90% of the plan as it has been written. **There are scripts for every one of the 13 sessions, including Thumb Rubbing for cravings, Brick Wall Technique for separation from the addiction, Black Hole Technique for 'ridding oneself of cravings, defects, and the addiction itself in outer space, Parts Communication, "Time Line Repair" in two versions, one for the treatment of addicts and one to use in the workshop, Relapse Prevention, Creating an Addiction Free Future, and Programming Your Future.** Tony may very well be the most acclaimed, experienced and original addictions specialist in the USA!
